The first-ever full reckoning with Marvel Comics' interconnected, half-million-page story, a revelatory guide to the "epic of epics" and to the past sixty years of American culture—from a beloved authority on the subject who read all 27,000+ Marvel superhero comics and lived to tell the tale "Brilliant, eccentric, moving and wholly wonderful. . . . Wolk proves to be the perfect guide for this type of adventure: nimble, learned, funny and sincere. . . . All of the Marvels is magnificently marvelous. Wolk's work will invite many more alliterative superlatives. It deserves them all." Junot Díaz, New York Times Book Review The superhero comic books that Marvel Comics has published since 1961 are, as Douglas Wolk notes, the longest continuous, self-contained work of fiction ever created: over half a million pages to date, and still growing. The Marvel story is a gigantic mountain smack in the middle of contemporary culture. Thousands of writers and artists have contributed to it. Everyone recognizes its protagonists: Spider-Man, the Avengers, the X-Men. Eighteen of the hundred highest-grossing movies of all time are based on parts of it. Yet not even the people telling the story have read the whole thing—nobody's supposed to. So, of course, that's what Wolk did: he read all 27,000+ comics that make up the Marvel Universe thus far, from Alpha Flight to Omega the Unknown. And then he made sense of it—seeing into the ever-expanding story, in its parts and as a whole, and seeing through it, as a prism through which to view the landscape of American culture. In Wolk's hands, the mammoth Marvel narrative becomes a fun-house-mirror history of the past sixty years, from the atomic night terrors of the Cold War to the technocracy and political division of the present day—a boisterous, tragicomic, magnificently filigreed epic about power and ethics, set in a world transformed by wonders. As a work of cultural exegesis, this is sneakily significant, even a landmark; it's also ludicrously fun. Wolk sees fascinating patterns—the rise and fall of particular cultural aspirations, and of the storytelling modes that conveyed them. He observes the Marvel story's progressive visions and its painful stereotypes, its patches of woeful hackwork and stretches of luminous creativity, and the way it all feeds into a potent cosmology that echoes our deepest hopes and fears. This is a huge treat for Marvel fans, but it's also a revelation for readers who don't know Doctor Strange from Doctor Doom. Here, truly, are all of the marvels.

Luca loves big things like big trucks and big buildings but when he sets out to bring home the biggest of all Christmas trees he instead finds a much smaller tree, perfect just as it is.

"The Bible is packed full of amazing accounts of adventure, excitement, and redemption. A beautiful garden, a great flood, dusty travels

through a dry desert, a land flowing with milk and honey, good and bad kings, and a holy baby who came to be the Redeemer. In this fast-paced book, you'll journey from Genesis to Revelation, seeing the many ways God has shown us His love and redemption throughout history!--Cover back.

The Gospel of Judas is the most important discovery in history. It bridges the gap between Eastern mystic teaching, Gnosticism, and the three Middle Eastern Abrahamic religions, informing all of them. Unfortunately, the Christianity-biased scholars assigned to its interpretation and those who have followed them do not understand it -- at all. They miss that Judas is the gnostic sacrifice, and that there is no traditional orthodox Jesus sacrificed - in the Gospel of Judas or in the Bible. Therefore, they miss the most important revelation of all time: that 'Jesus' didn't die to save anyone, and that he was in truth preceded and succeeded by other Masters of equal stature. Here from gnostic texts that only just recently arose from the desert sands of Egypt, phoenix-like, is the detailed story of how the New Testament canonical 'Betrayal of Jesus' became the inversion of the gnostic mastership installation story of James the Just, first-century savior. The true origin of the Christian message and its nullification of mystic Truth can now, at long last, be fully told. Connecting verses from the Gnostic Apocalypse of James to the New Testament narrative showing that Judas was James in the Canonical Inversions: First Apocalypse of James "I have given you a sign" (NHC 24:10) "gave them a sign" [the "kiss"] (Matt. 26:48). "Cup of bitterness to the sons of light" (25:15) "let this cup pass from me" (Matt. 26:39). "This is the second Master" (30:25) "Those who seek enter through you" (Second Apoc. 55:1) "I know whom I have chosen." (John 13:18). "Then the disciples dispersed, but James remained in prayer" (30:25) "he withdrew and prayed" (Luke 22:41). "I am he who was within me" (31:15) "I know whom I have chosen" and "I am he" (John 13:18-19). "You have embraced and kissed me" (32:5) "He said 'Hail Master!' and kissed him" (Matt. 26:49). "You are aware and stopped this prayer" (32:5) "Sit here while I pray" (Matt. 26:36). "The flesh is weak" (32:20) "the flesh is weak" (Matt. 26:41). "It will receive what has been ordained for it" (32:20) "thy will be done" (Matt. 26:42). "A multitude will arm themselves against you" (33:5) "band of soldiers with weapons" (John 18:3, Mark 14:43). This book by Kevin DeYoung combines 104 easy-to-read stories from the Bible with captivating artwork by Don Clark, helping children ages 6-12 learn the unified story of the Bible.

So often children know stories from the Bible but don't understand the story of the Bible as a whole, the metanarrative. This book seeks to tell the big story of the Bible in an accessible and engaging way. For very young children the pictures have been designed to tell the story without words, older children can have it read to them or, from about the age of 6 or 7 should be able to read it for themselves. Why is it important that children understand the big story of the Bible anyway? Often as children grow up, particularly if they are part of a church and/or have Christian parents, they will hear how much God loves them, that Jesus loves them; and that God loves the world. It's a great message and one I firmly believe in; but it creates a 'love bubble' which can easily burst when children start to become more aware of and engage with the world around them. A child who has grown up in this 'love bubble' might get to aged 6 or 7 and find that a pet dies, they begin to engage with news media for the first time and are surrounded by sadness; or perhaps a family member dies. Where is the God who loves them now? How could a God who loves them and is their friend let this happen? The love bubble bursts, and the risk is that children turn their back on God because they can't align what they have been taught with the world around them that they are beginning to understand. I believe children need to grow up knowing that God loves them and wants to be their friend, but also that the world is broken and not how God wants it to be. Children need to be given a lens to help them make sense of what they see and understand from the world around them. Teaching children about brokenness at the same time as love avoids the love bubble and the consequences of it bursting. God's Big Story also includes the idea of choices, the choices we make every day but also that being God's friend is a choice. Wrong choices caused the world to break but the essence of God giving choice is love. A God who wants to be our friend allows us to choose how to respond because He loves people. Children are invited to engage with the story, to make choices, on every page. At the end of the book children are invited to choose how they want to respond to what they have heard. God's Big Story aims to tell the big story of the Bible so that children have a frame of reference to fit individual Bible stories into. It also makes the foundations of the Christian faith accessible to children and lays foundations for the future.
