Learn new words and learn to read with this narrated ebook! Ed the Dinosaur wakes up and gets his socks on, eats some rocks, and puts on his green shorts. He would like to ride his red sled, but there is no snow. Ed adds wheels to his sled, and now he can ride it when it's hot or cold! Promotes self-sufficiency and creative thinking. Includes a note to parents with tips on how to encourage reading and on how to help your child learn to read. Also included is a list of words to "point and read" to help young readers learn new words. As each word is read by a narrator, words are highlighted on the screen. Sounds effects are also included.

A colorful collection of dinosaurs heads off for a "stomp in the swamp."

This new book, greatly expanded from the 1995 first edition, describes detailed, step-by-step procedures for sculpting, molding and painting original prehistoric animals. It emphasizes the use of relatively inexpensive materials including oven-hardening polymer clay and wire. Additional tips are offered on how to build distinctive dino-dioramas and scenes involving one's own original sculptures that you will learn how to conceive and build. This book will appeal to a new generation who would like to break into the industry of paleosculpture. Techniques range from "basic" to "advanced." The authors also discuss what it means to be a "paleoartist."

Edward gets more and more nervous as his older brother tries to convince him that a dinosaur egg is about to hatch under his bed.

The ideal textbook for non-science majors, this lively and engaging introduction encourages students to ask questions, assess data critically and think like a scientist. Building on the success of the previous editions, Dinosaurs has been reorganised and extensively rewritten in response to instructor and student feedback. It continues to make science accessible and relevant through its clear explanations and extensive illustrations. Updated to reflect recent fossil discoveries and to include new taxa, the text guides students through the dinosaur groups, emphasising scientific concepts rather than presenting endless facts. It is grounded in the common language of modern evolutionary biology - phylogenetic systematics - so that students examine dinosaurs as professional paleontologists do. The key emerging theme of feathered dinosaurs, and the many implications of feathers, have been integrated throughout the book, highlighted by the inclusion of

stunning new photographs in this beautifully illustrated text, now in full colour throughout.

After accidentally stumbling into a hole, the reader is hurled back one hundred million years into the past, where a fierce Tyrannosaurus Rex and other dangerous dinosaurs threaten to attack.

**Book Features:** □ 24 pages, 8 inches x 8 inches □ Ages 5-7, Grades K-1 leveled readers □ Simple, easy-to-read pages with vibrant illustrations □ Features before and after reading vocabulary □ Includes reading tips and comprehension and extension activities

**The Magic Of Reading:** Introduce young learners to the magic of reading with *We're Going on a Dinosaur Dig*. This 24-page fictional adventure book features vibrant illustrations and simple language to practice early reading comprehension skills.

**Hands-On Reading Adventure:** A group of friends go on an adventure to dig for dinosaur bones but find something much greater! Follow along as three best friends hike through grass, explore a jungle, and sludge through mud only to find an unexpected surprise.

**Features:** More than just a fun story, this kids book also includes pre- and post-reading vocabulary lists, as well as reading tips for mid-story interaction and engagement. The book also includes end-of-book comprehension and extension activities.

**Leveled Books:** Vibrant illustrations and leveled text work together to tell a fun story and promote reading comprehension skills. The book engages kindergarteners and first graders with short, simple language and high-interest topics like dinosaurs.

**Why Rourke Educational Media:** Since 1980, Rourke Publishing Company has specialized in publishing engaging and diverse non-fiction and fiction books for children in a wide range of subjects that support reading success on a level that has no limits.

Relates the competition between Othniel Marsh and Edward Cope to discover more fossils, name more species, and publish more papers that brought out the best and worst in them and provided the world with a new view of life on Earth.

Investigates the idea that the natural disaster many scientists suspect caused the extinction of the dinosaurs occurred near Puerto Chicxulub, Mexico, when an asteroid collided with Earth, releasing deadly amounts of energy.

Provides a colorful history of the scientific race that pitted two rival scientists against each other in the nineteenth century in the race to uncover evidence that dinosaurs roamed the earth. Reprint. 15,000 first printing.
