This memoir on the ancient and future resources of African literature, by the author of Two Thousand Seasons, KMT and other novels, gives colonial Africanist preconceptions of Africa's literary heritage a clean burial. Citing new evidence on oral and written traditions, it shows that Africa's old oral culture,

antedating the pyramids, was the matrix from which emerged the hieroglyphic literature of ancient Egypt.

New England Puritan sermon culture was primarily an oral phenomenon, and yet its literary production has been understood mainly through a print legacy. In *Jeremiah's Scribes*, Meredith Marie Neuman turns to the notes taken by Puritan auditors in the meetinghouse in order to fill out our sense of the lived experience of the sermon. By reconstructing the aural culture of sermons, Neuman shifts our attention from the pulpit to the pew to demonstrate the many ways in which sermon auditors helped to shape this dominant genre of Puritan New England. Tracing the material transmission of sermon texts by readers and writers, hearers and notetakers, *Jeremiah's Scribes* challenges the notion of stable authorship by individual ministers. Instead, Neuman illuminates a mode of textual production that pervaded communities and occurred in the overlapping media of print, manuscript, and speech. Even printed sermons, she demonstrates, bore the traces of their roots in the oral culture of the meetinghouse. Bringing material considerations to bear on anxieties over the perceived relationship between divine and human language, *Jeremiah's Scribes* broadens our understanding of all Puritan literature. Neuman examines the controlling logic of the sermon in relation to nonsermonic writing—such as conversion narrative—ultimately suggesting the fundamental permeability among disparate genres of Puritan writing.

But he was quickly captured and, after a short but stormy trial, hanged on December 2, 1859. Brian McGinty provides the first comprehensive account of the trial, which raised important questions about jurisdiction, judicial fairness, and the nature of treason under the American constitutional system.

In this learned, yet readable, book, Joseph McDermott introduces the history of the book in China in the late imperial period from 1000 to 1800. He assumes little knowledge of Chinese history or culture and compares the Chinese experience with books with that of other civilizations, particularly the European. Yet he deals with a wide range of issues in the history of the book in China and presents novel analyses of the changes in Chinese woodblock bookmaking over these centuries. He presents a new view of when the printed book replaced the manuscript and what drove that substitution. He explores the distribution and marketing structure of books, and writes fascinatingly on the history of book collecting and about access to private and government book collections. In drawing on a great deal of Chinese, Japanese, and Western research this book provides a broad account of the way Chinese books were printed, distributed, and consumed by literati and scholars, mainly in the lower Yangzi delta, the cultural center of China during these centuries. It introduces interesting personalities, ranging from wily book collectors to an indigent shoe-repairman collector. And, it discusses the obstacles to the formation of a truly national printed culture for both the well-educated and the struggling reader in recent times. This broad and comprehensive account of the development of printed Chinese culture from 1000 to 1800 is written for anyone interested in the history of the book. It also offers important new insights into book culture and its place in society for the student of Chinese history and culture. 'A brilliant piece of synthetic research as well
