The English Civil War (1642–1651) was a series of civil wars and political machinations between Parliamentarians (" Roundheads ") and Royalists (" Cavaliers "), mainly over the manner of England 's governance and issues of religious freedom. It was part of the wider Wars of the Three Kingdoms.

English Civil War - Wikipedia

English Civil Wars, also called Great Rebellion, (1642–51), fighting that took place in the British Isles between supporters of the monarchy of Charles I (and his son and successor, Charles II) and opposing groups in each of Charles's kingdoms, including Parliamentarians in England, Covenanters in Scotland, and Confederates in Ireland.

Fought between 1642–1651, the English Civil War saw King Charles I (1600–1649) battle Parliament for control of the English government. The war began as a result of a conflict over the power of the monarchy and the rights of Parliament. During the early phases of the war, the Parliamentarians expected to retain Charles as king, but with expanded powers for Parliament. Though the Royalists won early victories, the Parliamentarians ultimately triumphed.

Remembering the English Civil Wars is the first collection of essays to explore how the bloody struggle which took place between the supporters of king and parliament during the 1640s was viewed in retrospect. The English Civil Wars were perhaps the most calamitous series of conflicts in the country's recorded history. Over the past twenty years there has been a surge of interest in the way that the Civil Wars were remembered by the men, women and children who were unfortunate enough to live through them. The essays brought together in this book not only provide a clear and accessible introduction to this fast-developing field of study but also bring together the voices of a diverse group of scholars who are working at its cutting edge. Through the investigation of a broad, but closely interrelated, range of topics – including elite, popular, urban and local memories of the wars, as well as the relationships between civil war memory and ceremony, material culture and concepts of space and place – the essays contained in this volume demonstrate, with exceptional vividness and clarity, how the people of England and Wales continued to be haunted by the ghosts of the mid-century conflict throughout the decades which followed. The book will be essential reading for all students of the English Civil Wars, Stuart Britain and the history of memory.

The English Civil Wars (1638–51) comprised the deadliest conflict ever fought on British soil, in which brother took up arms against brother, father fought against son, and towns, cities and villages fortified themselves in the cause of Royalists or Parliamentarians. Although much historical attention has focused on the events in England and the key battles of Edgehill, Marston Moor and Naseby, this was a conflict that engulfed the entirety of the Three Kingdoms and led to a trial and execution that profoundly shaped the British monarchy and Parliament.

This beautifully presented atlas tells the whole story of Britain's revolutionary civil war, from the earliest skirmishes of the Bishops Wars in 1639–40 through to 1651, when Charles II's defeat at Worcester crushed the Royalist cause, leading to two decades of Stuart exile. Each map is supported by a detailed text, providing a complete explanation of the complex and fluctuating conflict that ultimately meant that the Crown would always be answerable to Parliament.

In this volume seven distinguished British scholars present their current thinking on the complex issues of the Great Rebellion of the seventeenth century. Commissioned for presentation at Eton College, the essays offer a fresh distillation of important recent scholarship on the Civil War and its aftermath.

In this compelling history of the violent struggle between the monarchy and Parliament that tore apart seventeenth-century England, a rising star among British historians sheds new light on the people who fought and died through those tumultuous years. Drawing on exciting new sources, including letters, memoirs, ballads, plays, illustrations, and even cookbooks, Diane Purkiss creates a rich and nuanced portrait of this turbulent era. The English Civil War's dramatic consequences—rejecting the divine right monarchy in favor of parliamentary rule—continue to influence our lives, and in this colorful narrative, Purkiss vividly brings to life the history that changed the course of Western government.

This is a history of the English Civil War using first-hand contemporaneous accounts to bring the period and its characters to life. As well as the most famous documents, diaries and court

cases of the period, the author has uncovered less known sources which offer a fresh perspective on the subject.

The English Civil War has become a frequent point of reference in contemporary British political debate. A bitter and bloody series of conflicts, it shook the very foundations of seventeenth-century Britain. This book is the first attempt to portray the visual legacy of this period, as passed down, revisited, and periodically reworked over two and a half centuries of subsequent English history. Highly regarded art historian Stephen Bann deftly interprets the mass of visual evidence accessible today, from ornate tombs and statues to surviving sites of vandalism and iconoclasm, public signage, and historical paintings of human subjects, events, and places. Through these important scenes and sometimes barely perceptible traces, Bann shows how the British view of the War has been influenced and transformed by visual imagery.

John Adamson provides a new synthesis of current research on the political crisis that engulfed England in the 1640s. Drawing on new archival findings and challenging current orthodoxies, these essays by leading historians offer a variety of original perspectives, locating English events firmly within a 'three kingdoms' context.

A Military History of the English Civil War examines how the civil war was won, who fought for whom, and why it ended. With a straightforward style and clear chronology that enables readers to make their own judgements and pursue their own interests further, this original history provides a thorough critique of the reasons that have been cited for Parliament's victory

and the King's defeat in 1645/46. It discusses the strategic options of the Parliamentary and Royalist commanders and councils of war and analyses the decisions they made, arguing that the King's faulty command structure was more responsible for his defeat than Sir Thomas Fairfax's strategic flair. It also argues that the way that resources were used, rather than the resources themselves, explain why the war ended when it did.

The English Civil War is a subject which continues to excite enormous interest throughout the world. This atlas consists of over fifty maps illustrating all the major - and many of the minor - bloody campaigns and battles of the War, including the campaigns of Montrose, the battle of Edgehill and Langport. Providing a complete introductory history to the turbulent period, it also includes: * maps giving essential background information * detailed accompanying explanations * a useful context to events.

Sir, God hath taken away your eldest son by a cannon shot. It brake his leg. We were necessitated to have it cut off, whereof he died.' In one of the most famous and moving letters of the Civil War, Oliver Cromwell told his brother-in-law that on 2 July 1644 Parliament had won an emphatic victory over a Royalist army commanded by King Charles I's nephew, Prince Rupert, on rolling moorland west of York. But that battle, Marston Moor, had also slain his own nephew, the recipient's firstborn. In this vividly narrated history of the deadly conflict that engulfed the nation during the 1640s, Peter Gaunt shows that, with the exception of World War I, the death-rate was higher than any other contest in which Britain has participated. Numerous towns and villages were garrisoned, attacked, damaged or wrecked. The landscape was

Bookmark File PDF The English Civil War A Military History

profoundly altered. Yet amidst all the blood and killing, the fighting was also a catalyst for profound social change and innovation. Charting major battles, raids and engagements, the author uses rich contemporary accounts to explore the life-changing experience of war for those involved, whether musketeers at Cheriton, dragoons at Edgehill or Cromwell's disciplined Ironsides at Naseby (1645).
