How to Teach Maths challenges everything you thought you knew about how maths is taught in classrooms. Award-winning author Steve Chinn casts a critical eye over many of the long-established methods and beliefs of maths teaching. Drawing from decades of classroom experience and research, he shows how mathematics teaching across the whole ability range can be radically improved by learning from the successful methods and principles used for the bottom quartile of achievers: the outliers. Chinn guides readers through re-adjusting the presentation of maths to learners, considering learners' needs first, and explains the importance of securing early learning to create a conceptual foundation for later success. This highly accessible book uses clear diagrams and examples to support maths teachers through many critical issues, including the following: The context of maths education today Topics that cause students the most difficulty Effective communication in the mathematics classroom Addressing maths anxiety The perfect resource for maths teachers at all levels, this book is especially useful for those wanting to teach the foundations of mathematics in a developmental way to learners of all ages and abilities. It has the potential to change the way maths is taught forever.

The NIV Application Commentary helps you communicate and apply biblical text effectively in today's context. To bring the ancient messages of the Bible into today's world, each passage is treated in three sections: Original Meaning. Concise exegesis to help readers understand the original meaning of the biblical text in its historical, literary, and cultural context. Bridging Contexts. A bridge between the world of the Bible and the world of today, built by discerning what is timeless in the timely pages of the Bible. Contemporary Significance. This section identifies comparable situations to those faced in the Bible and explores relevant application of the biblical messages. The author alerts the readers of problems they may encounter when seeking to apply the passage and helps them think through the issues involved. This unique, award-winning commentary is the ideal resource for today's preachers, teachers, and serious students of the Bible, giving them the tools, ideas, and insights they need to communicate God's Word with the same powerful impact it had when it was first written.

The Search for Truth, offers a look at the critical issues asked by generations of people with a passion for making sense of human existence. This book debates some of the most critical questions of our time from "does absolute truth exist?" to "what happens after death?" A fresh, new approach is taken to these topics in well thought-out and philosophical way. On this journey, readers will be treated to unique insights as fellow sojourners on life's highway.This valuable and compelling book propels the reader through awnsering the following key questions in life: Does absolute truth exist? Are all belief systems based on "Blind Faith?" How do you determine right and wrong?Can man live without God?Don't all religions lead to God?Is there a God?What is the meaning of life?How do I know that I know?How did I get here?Why is there evil and suffering?What happens after death? In this quest for meaningful answers, The Search for Truth explores philosophies from the past to present and unfolds multicultural "isms" into easy to understand text, which provides a complete and coherent worldview.The topics are presented in a vibrant way that grabs hold of reader's minds as well as sprints and dives headlong into the reality of God, heaven, hell, and hope. This book is a must read for all those engaged in the thoughtful, the meaningful, search for truth.

This book deals with foundation law in various European countries. It sums up contributions from the most outstanding experts in foundation law in fourteen countries. These are either civil law or common law, and their socio-economical situation is considerably different. Despite the outstanding differences in each country, foundations have been growing in number and importance all over Europe in the last decades. Political, economical and social changes occurred in various European countries increased foundations' role. The need to focus on foundations' laws and regulations arose in many States for different reasons. The contributions in this book focus in particular on the recent development of foundation law, on the evolution foundations have undergone in recent years and on trends in law.

In a business world and society focused upon questions, there has been an underappreciation of answers in capturing our attention, imagination and critical examination. In a complex and fast-moving world, Answer Intelligence (AQ) is our ability to provide elevated answers to emotionally connect, explain and predict, and achieve results.
