An illuminating in-depth study of one of the most well-known and recited of all the Buddhist texts by a renowned modern translator The Prajna Paramita Hridaya Sutra is among the best known of all the Buddhist scriptures. Chanted daily by many Zen practitioners, it is also studied extensively in the Tibetan tradition, and it has been regarded with interest more recently in the West in various fields of study—from philosophy to quantum physics. In just a few lines, it expresses the truth of impermanence and the release of suffering that results from the understanding of that truth with a breathtaking economy of language. Kazuaki Tanahashi ' s guide to the Heart Sutra is the result of a life spent working with it and living it. He outlines the history and meaning of the text and then analyzes it line by line in its various forms (Sanskrit, Chinese, Japanese, Korean, Tibetan, Mongolian, and various key English translations), providing a deeper understanding of the history and etymology of the elusive words than is generally available to the non-specialist—yet with a clear emphasis on the relevance of the text to practice. This book includes a fresh and meticulous new translation of the text by the author and Roshi Joan Halifax.

meditation and mindful practices released in 2009. Awakening of the Heart captures the heart of Buddhist wisdom and Thich Nhat Hanh ' s unique talent to make the Buddha ' s teachings accessible and applicable to our daily lives and times. This is a wonderful gift for anyone looking to deepen their practice and understanding of the teachings, as well as a unique resource to understand the fundamentals of Buddhism from its source. With a new introduction and updated commentary, Awakening of the Heart contains the following sutras: Prajnaparamita Heart Sutra, Diamond Sutra, Sutra On Full Awareness Of Breathing, Sutra On The Four Establishments Of Mindfulness, Sutra On The Better Way To Catch A Snake, Sutra On The Better Way To Live Alone , Sutra On The Eight Realizations Of The Great Beings, Discourse On Happiness, Teachings On the Middle Way.

Comprised of only 632 Chinese characters, the Heart Sutra is Buddhism in a nutshell. Despite its brevity, this powerful work covers more of the Buddha ' s teachings than any other scripture, and its influence is more profound and wide-reaching than any other text in Buddhism. Thich Nhat Hanh ' s translation and commentary is regarded as the most simple, clear, concise, and understandable available. He describes the sutra as " a precious gift to us, the gift of fearlessness," offering subtle and profound teachings on non-duality and the letting go of all preconceived notions, opinions, and attachments, thereby becoming open to all the wonders of our life. This completely revised edition celebrates the 20th anniversary of the first publication of a modern classic.

The radical message of the Heart Sutra, one of Buddhism's most famous texts, is a sweeping attack on everything we hold most dear: our troubles, the world as we know it, even the teachings of the Buddha himself. Several of the Buddha's followers are said to have suffered heart attacks and died when they first heard its assertion of the basic groundlessness of our existence—hence the title of this book. Overcoming fear, the Buddha teaches, is not to be accomplished by shutting down or building walls around oneself, but instead by opening up to understand the illusory nature of everything we fear—including ourselves. In this book of teachings, Karl Brunnhölzl guides practitioners through this 'crazy' sutra to the wisdom and compassion that lie at its core.

Though The Heart Sutra is an ancient Buddhist scripture, scholars are now discovering how it offers insight into the nature of an ultimate reality perceived through intuitive wisdom. Fascinatingly, quantum physicists are increasingly discovering interesting parallels between science and the basic insights of The Heart Sutra. In this important offering, Mu Soeng shows how the intellectual and the intuitive can begin to meet. In offering a commentary on this important piece of the world's great religious literature, The Heart of the Universe establishes a broad context to encounter The Heart Sutra on many levels—historical, spiritual, and empirical—each serving to interdependently illuminate the other.

The Heart Sutra is perhaps the most famous Buddhist text, traditionally regarded as a potent expression of emptiness and of the Buddha's perfect wisdom. This brief, seemingly simple work was the subject of more commentaries in Asia than any other sutra. In *Elaborations on Emptiness*, Donald Lopez explores for the first time the elaborate philosophical and ritual uses of the Heart Sutra in India, Tibet, and the West. Included here are full translations of the eight extant Indian commentaries. Interspersed with the translations are six essays that examine the unusual roles the Heart Sutra has played: it has been used as a mantra, an exorcism text, a tantric meditation guide, and as the material for comparative philosophy. Taken together, the translations and essays that form *Elaborations on Emptiness* demonstrate why commentary is as central to modern scholarship on Buddhism as it was for ancient Buddhists. Lopez reveals unexpected points of instability and contradiction in the Heart Sutra, which, in the end, turns out to be the most malleable of texts, where the logic of commentary serves as a tool of both tradition and transgression.

commentaries, preserved only in Tibetan, to investigate the meanings derived from and invested into the sutra during the later period of Indian Buddhism. The Heart Sutra Explained offers new insights on "form is emptiness, emptiness is form," on the mantra "gate gate paragate parasamgate bodhi svaha," and on the synthesis of Madhyamika, Yogacara, and tantric thought that characterized the final period of Buddhism in India. It also includes complete translations of two nineteenth century Tibetan commentaries demonstrating the selective appropriation of Indian sources.
