Jose Raoul Capablanca is widely regarded as the strongest chess player who ever lived prior to Bobby Fischer. The authoritative work, "The Rating of Chess Players Past and Present" by Arpad Elo, inventor of the modern rating system, ISBN 0923891277, rates Capablanca as 2725, higher than any other player in history prior to Fischer. The great thing about Capablanca's style of play is he tended to play simple, direct moves, moves that even an amateur player can find over the board. Jose Raul Capablanca y Graupera was the third World Champion, reigning from 1921 until 1927. Renowned for the simplicity of his play, his legendary endgame prowess, accuracy, and the speed of his play, he earned the nickname of the "Human Chess Machine." Jose Raul Capablanca (Havana, November 19, 1888 - New York, March 8, 1942) was a Cuban chess player, world chess champion from 1921 to 1927. Capablanca's ideas are still relevant on the world stage of chess. His images are a powerful aid to the student board secrets. Jose Raoul Capablanca one of the outstanding players of all time became world's chess champion in 1921 when he defeated Lasker by 4 to 0. During his lifetime he held all the world's major records. In twenty five years of tournament play he lost less than twenty-five games, while between 1916 and 1924 he lost not a single one."

DIV60 complete games, annotated throughout but emphasizing endings that seem like long-contemplated works of art. /div

Jose Raul Capablanca is a chess legend, world champion and quite simply one of the greatest players in the history of the game. His achievements and seemingly effortless style of play won many admirers, and his legacy includes a treasure of instructive games. Studying Capablanca's play is a must for any aspiring chess player. For Cyrus Lakdawala, it was a key factor in his chess development and improvement, and in this book he revisits many of his favourite Capablanca games. Lakdawala examines Capablanca's skills in attack, defence, counter-attack, exploiting imbalances, accumulating advantages and, of course, his legendary endgame play. Move by Move provides an ideal platform to study chess. By continually challenging the reader to answer probing questions throughout the book, the Move by Move format greatly encourages the learning and practising of vital skills just as much as the traditional assimilation of knowledge. Carefully selected questions and answers are designed to keep you actively involved and allow you to monitor your progress as you learn. This is an excellent way to improve your chess skills and knowledge.

This compendium provides an enormous amount of documentary data, usefully organized, much of it unseen since original (and often obscure) publication. Writings are by and about Capablanca; the minute details of his life and games proceed chronologically; the controversies of his career are especially well documented. The book has a games and positions index, an index of openings, a general index, and 26 rare photographs on glossy plates.

Here are 100 of Rubenstein's best games against such opponents as Euwe, Janowski, Kashdan, Marshall, Tarrasch, and many others. His highly original contributions to chess theory cannot be overlooked by any serious player.

Vast collection of great chess games from 1798 through 1938, with much hard-to-find material. Fully annotated, arranged by opening for easier study. 150 years of master play!

Improve your chess by studying the greatest games of all time, from Adolf Anderssen's 'Immortal Game' to Magnus Carlsen's world championship victories, and featuring a foreword by five-times World Champion Vishy Anand. This book is written by an all-star team of authors. Wesley So is the reigning Fischer Random World Champion, the 2017 US Champion and the winner of the 2016 Grand Chess Tour. Michael Adams has been the top British player for the last quarter of a century and was a finalist in the 2004 FIDE World Championship. Graham Burgess is the author of thirty books, a former champion of the Danish region of Funen, and holds the world record for marathon blitz chess playing. John Nunn is a three-time winner of both the World Solving Championship and the British Chess Federation Book of the Year Award. John Emms is an experienced chess coach and writer, who finished equal first in the 1997 British Championship and was chess columnist of the Young Telegraph. The 145 greatest chess games of all time, selected, analysed, re-evaluated and explained by a team of British and American experts and illustrated with over 1,100 chess diagrams. Join the authors in studying these games, the cream of two centuries of international chess, and develop your own chess-playing skills - whatever your current standard. Instructive points at the end of each game highlight the lessons to be learned. First published in 1996, a second edition of The Mammoth Book of the World's Greatest Chess Games in 2004 included an additional twelve games. Another new edition in 2010 included a further thirteen games as well as some significant revisions to the analysis and information regarding other games in earlier editions of the book, facilitated by the use of a variety of chess software. This 2021 edition, further updated and expanded, now includes 145 games. The authors have made full use of the new generation of chess analysis engines that apply neural-network based AI.
