Reuters.com brings you the latest news from around the world, covering breaking news in markets, business, politics, entertainment, technology, video and pictures.

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

An introduction to leadership draws on a program developed for an elementary school to show how to apply the principles of The 7 Habits of Highly Effective People to help everyone, including young children, identify their individual talents and find ways to use them in everyday life. 500,000 first printing.

The world has entered an era of the most profound and challenging change in human history. Most of our children are not prepared, and we know it. Parents around the world see the change and know that the traditional three R's -- reading, writing, and arithmetic -- are necessary, but not enough. Their children need to become far more responsible, creative, and tolerant of differences. They need to increase their ability to think for themselves, take initiative, get along with others, and solve problems. Business leaders are not finding people whose skills and character match the demands of today's global economy, including strong communication, teamwork, analytical, technology, and organizational skills. They need young people who are self-motivated, creative, and have a strong work ethic. How will we bridge this ever-widening gap? The Leader in Me is the story of the extraordinary schools, parents, and business leaders around the world who are preparing the next generation to meet the great challenges and opportunities of the twenty-first century. In 1999, the A.B. Combs Elementary School in North Carolina was on the verge of being cut as a magnet school and needed to find new ways to educate its students. Teachers and administrators began teaching practical, principle-based leadership skills -- with remarkable results. In a short time, the number of students passing end-of-grade tests vaulted from 84 to 97 percent. Simultaneously, the school began reporting significant increases in students' self-confidence, dramatic drops in discipline problems, and striking increases in teacher and administrator job satisfaction. Parents, meanwhile, reported equivalent improvements in their children's attitudes and behavior at home. As news of the school's

success spread, schools around the world began adopting the mantra to "develop leaders, one child at a time." Business and civic leaders started partnering with schools in their communities to sponsor teacher training and student resources. Each school and family approached the principles differently, but the results were the same -- attentive, energized young people engaging in the world around them. The best way to prepare the next generation for the future is to emphasize the value of communication, cooperation, initiative, and unique, individual talent -- for nothing undermines confidence more than comparison. Whether in the classroom or at home, it is never too early to start applying leadership skills to everyday life. Drawing on the many techniques and examples that have already seen incredible success around the world, *The Leader in Me* shows how easy it is to incorporate these skills into daily life. It is a timely answer to many of the challenges facing today's young people, businesses, parents, and educators -- one that is perfectly matched to the global demands of the twenty-first century.

In *The 7 Habits of Happy Kids*, Sean Covey uses beautifully illustrated stories to bring his family's successful philosophy to the youngest child. For the Seven Oaks friends, there is always something to do. Whether they're singing along with Pokey Porcupine's harmonica or playing soccer with Jumper Rabbit, everyone is having fun and learning all sorts of things. These seven stories show how practicing the 7 Habits makes this possible for the whole Seven Oaks Community. From learning how to take charge of their own lives to discovering how balance is best, the Seven Oaks friends have tons of adventures and find out how each and every kid can be a happy kid!

A revolutionary guidebook to achieving peace of mind by seeking the roots of human behavior in character and by learning principles rather than just practices. Covey's method is a pathway to wisdom and power.
