At age 27, L Ron Hubbard clinically 'died' only to discover that he could remote view. From this state of consciousness, which would later be called 'exterior', he was able to access what he termed the answers to all of the questions that had ever puzzled philosophers or the minds of men. Transcribing this information into a work entitled *Excalibur*, which is still

under lock and key to this day, he developed one of the most controversial movements in history: Dianetics and Scientology. The truth and import of the above can only be evaluated by the all out war which was waged by governmental forces and spy agencies to obtain the legally construed rights to the above mentioned work and all of the developments and techniques that ensued from it. 'The Montauk Book of the Dead' is the personal story of Peter Moon which not only pierces the mystery of death but gives an unbiased behind-the-scenes look at one of the most controversial figures in history and the bizarre legacy of his death. Read this book and expect to learn more than you ever thought possible.

Afterward occurred the now famous time travel experiments named after the underground base at Montauk Point on Long Island. Now this third book in the Montauk series summarises the events of the first two books and then takes the reader on an even more spectacular journey. An "extraordinary" debut memoir of first love, identity, and self-discovery among a group of friends who became family in a Montauk summer house (Andrew Solomon, National Book Award winner). They call Montauk the end of the world, a spit of land jutting into the Atlantic. The house was a ramshackle split-level set on a hill, and each summer thirty-one people would sleep between its thin walls and shag carpets. Against the moonlight the house's octagonal roof resembled a bee's nest. It was dubbed The Hive. In 2013, John Glynn joined the share house. Packing his duffel for that first Memorial Day Weekend, he prayed for clarity. At twenty-seven, he was crippled by an all-encompassing loneliness, a feeling he had carried in his heart for as long as he could remember. John didn't understand

the loneliness. He just knew it was there. Like the moon gone dark. Out East is the portrait of a summer, of The Hive and the people who lived in it, and John's own reckoning with a half-formed sense of self. From Memorial Day to Labor Day, The Hive was a center of gravity, a port of call, a home. Friendships, conflicts, secrets and epiphanies blossomed within this tightly woven friend group and came to define how they would live out the rest of their twenties and beyond. Blending the sand-strewn milieu of George Howe Colt's *The Big House* with the radiant aching of Olivia Liang's *The Lonely City*, *Out East* is a keenly wrought story of love and transformation, longing and escape in our own contemporary moment. "An unforgettable story told with feeling and humor and above all with

the razor-sharp skill of a delicate and highly gifted writer." -- André Aciman, New York Times bestselling author of Call Me by Your Name "Out East is full of intimacy and hope and frustration and joy, an extraordinary tale of emotional awakening and lacerating ambivalence, a confession of self-doubt that becomes self-knowledge."

In a class of his own, Paul Melnyk, the nationally renowned fisherman and originator of the surfcasting technique known as Skishing, includes in his memoir the mischievous, risky foibles of his fascinating youth which created the beginnings of his well worn exciting path of living on the edge. Whether trekking through the secluded trails and glens of Montauk's hinterland or rolling on the breakers with his rod and reel hooking a fat striper, Melnyk cranks it all up here in his memoir with rich tales that not only explain the mystique of the Montauk surf scene, but personifies it. Featured and celebrated in FORBES, NATIONAL GEOGRAPHIC, SPORTS AFIELD, ATLANTIC MONTHLY, MEN'S
