resolves to bring the threads of all four books together in a golden notebook. Doris Lessing's best-known and most influential novel, *The Golden Notebook* retains its extraordinary power and relevance decades after its initial publication.

Shocking, intimate, often uncomfortably honest, these stories reaffirm Doris Lessing's unequalled ability to capture the truth of the human condition. In the title novel, two friends fall in love with each other's teenage sons, and these passions last for years, until the women end them, vowing a respectable old age. In *Victoria and the Staveney's*, a young woman gives birth to a child of mixed race and struggles with feelings of estrangement as her daughter gets drawn into a world of white privilege. *The Reason for It* traces the birth, faltering, and decline of an ancient culture, with enlightening modern resonances. *A Love Child* features a World War II soldier who believes he has fathered a love child during a fleeting wartime romance and cannot be convinced otherwise.

Considered by many critics to be Britain ' s most important woman novelist, Doris Lessing warrants major attention. Her novels increasingly bring into question what it means to be an emancipated woman in a complex and male-dominated society, especially a woman involved with politics, with writing, with love and sex—a woman who frankly admits her sexuality. Schlueter ' s new book is the only in-depth study of all the Lessing novels to date and the first full-length study of her major themes. The insights provided in this work will enable readers to understand and appreciate Doris Lessing ' s perception and interpretation of human experience in this “ complex, chaotic, conformist world. ”
