"Three Lions" is a song released in 1996 as a single by English band The Lightning Seeds to mark the England football team's hosting of that year's European Championships. The music was written by the Lightning Seeds' Ian Broudie, with comedians David Baddiel and Frank Skinner—presenters of football-themed comedy show Fantasy Football League—providing the lyric. The title comes from the emblem of the England football team, which is in turn derived from the Royal Arms of England. This ...

'Someone recently said to me, in reference to my poetry podcast, that you'd think poetry would be more popular than ever, in the twenty-first century, because people don't have a lot of time and 'novels are often quite big while poems are often quite small'. I referred them to Doctor Who's Tardis.' Frank Skinner wants you to read more poetry. Wait, wait - don't stop reading. Whether you're a frequent poetry reader or haven't read any since sixth form, Frank's infectious passion for language, rhythm and metre will win you over and provide you with the basic tools you need to tackle any poem. In this short, easy-to-digest and delightful book, Frank guides us through the twists and turns of 'Pad, pad' by Stevie Smith, a short, seemingly simple poem that contains multitudes of meaning and a deceptive depth of emotion. Revel in the mastery of Stevie Smith's choice of words, consider the eternal mystery of the speaker of the poem and be moved by rhyming couplets like you never have before. Give it a go. You never know, you might even enjoy it.

A Comedian's Prayer Book. The title is a worry, isn't it?... God is a tough audience as far as audible response is concerned, but at least you don't have to explain the references. In this collection of prayers, much-loved comedian, broadcaster and radio host Frank Skinner has tried to retain the bare candour of the rehearsal-room improvisation - to show what faith feels like, from the inside - but infused it with all the production values required to make it a passable public entertainment. In it are his convictions, his questions, his fears, his doubts, his elations - all presented in an eavesdropper-friendly form. Hell, Judgement, atheism, money, faith and the X-Men all feature: it's a bit like reading the Bible, except you only get one side of the conversation, and all the jokes are left in.

'A wonderful blend of nostalgia, hilarity and personal anecdotes that only Josh Widdicombe could deliver' James Acaster 'If you read only one book by Josh Widdicombe this year, make it this one' Jack Dee 'Beautifully written, cleverly crafted and charmingly funny' Adam Hills 'This is a book about growing up in the '90s told through the thing that mattered most to me, the television programmes I watched. For my generation television was the one thing that united everyone. There were kids at my school who liked bands, kids who liked football and one weird kid who liked the French sport of petanque, however, we all loved Gladiators, Neighbours and Pebble Mill with Alan Titchmarsh (possibly not the third of these).' In his first memoir, Josh

Widdicombe tells the story of a strange rural childhood, the kind of childhood he only realised was weird when he left home and started telling people about it. From only having four people in his year at school, to living in a family home where they didn't just not bother to lock the front door, they didn't even have a key. Using a different television show of the time as its starting point for each chapter *Watching Neighbours Twice a Day...* is part-childhood memoir, part-comic history of '90s television and culture. It will discuss everything from the BBC convincing him that Michael Parkinson had been possessed by a ghost, to Josh's belief that Mr Blobby is one of the great comic characters, to what it's like being the only vegetarian child west of Bristol. It tells the story of the end of an era, the last time when watching television was a shared experience for the family and the nation, before the internet meant everyone watched different things at different times on different devices, headphones on to make absolutely sure no one else could watch it with them.

North American Edition of the UK Bestseller *How identity politics failed one particular identity.* 'a must read and if you think YOU don't need to read it, that's just the clue to know you do.' SARAH SILVERMAN 'This is a brave and necessary book.' JONATHAN SAFRAN FOER 'a masterpiece.' STEPHEN FRY

Frank Skinner's adventures on tour are by turns funny and moving as he meditates on growing older, the terrors and joys of trying to make a live audience laugh night after night and on the nature of comedy itself. This work describes his experience of going back on the road and doing stand-up again, after many years spent working on television.

This book is designed to be used by anybody working with older adults in residential, nursing and day care facilities. It provides a wealth of reminiscence material which can be used in a number of ways to rekindle memories and provide stimulating activity such as quizzes and discussion. Each year covered in the book is divided into the sections 'Major events', 'On the home front', 'Music', 'Television', 'Screen and page', 'Sport' and 'Do you remember?'. Many sections can be easily turned into quizzes and it would be simple to form a quiz from each year's material. One cannot cover all that happened in these years nor highlight all the associations each event or fact triggers, so the material is intended to be expanded on by the memories it triggers in clients during discussion. So, for example, where a film title is mentioned ask if people can recall the stars of the film, its plot and how it ended. The 'Major events' section will trigger lots of opinions too as it covers the political events of the decades so try to get the groups to discuss the ethical and moral dilemmas these posed at the time. The book is intended for use with individuals and groups but you will discover that in a group one person's memories will trigger another's and so what seems like a small topic can last for the whole session as we all try to tell our personal tales. While the content has a UK bias, it also covers the major world events of the decades but I have included a blank page for each year for you to record your own personal landmarks and achievements and also those of your local town or community. specialising in older adults mental health to a deeper level.

*Beyond a Joke* is a celebration of comedy - one of the modern world's most dominant and compelling art forms - but it is also the story of comedy's dark side, homing in on the scandals that have surrounded some of light entertainment's biggest stars, and telling it as it is, featuring insight from one who was there at the time. While *Beyond a Joke* explores the extremes of this world it also addresses another question. Are comedians naturally dysfunctional, or does the stress and pressure of the job make them dysfunctional? Ruby Wax once told the author that she had builders in her house who were just as emotionally unstable as most stand-up comedians she had worked with. But they don't want to go on stage and plead with an

audience to love them. Bruce Dessau is the only person who could write this book. From Russell Brand slashing his chest onstage to Jo Brand trashing a friend's car on the motorway, he has heard it all. Bruce Dessau knows where the bodies are buried.
