Harry S. Dent Jr., bestselling author of *The Demographic Cliff* and *The Sale of a Lifetime*, predicted the populist wave that has driven the Brexit vote, the election of Donald Trump, and other recent shocks around the world. Now he returns with the definitive guide to protect your investments and prosper in the age of the anti-globalist backlash. The turn of the 2020s will mark an extremely rare convergence of low points for multiple political, economic, and demographic cycles. The result will be a major financial crash and global upheaval that will dwarf the Great Recession of the 2000s--and maybe even the Great Depression of the 1930s. We're facing the onset of what Dent calls "Economic Winter." In *Zero Hour*, he and Andrew Pancholi (author of *The Market Timing Report* newsletter) explain all of these cycles, which influence everything from currency valuations to election returns, from economic growth rates in Asia to birthrates in Europe. You'll learn, for instance: "Why the most-hyped technologies of recent years (self-driving cars, artificial intelligence, virtual reality, blockchain) won't pay off until the 2030s." "Why China may be the biggest bubble in the global economy (and you'd be a fool to invest there)." "Why you should invest in the healthcare and pharmaceutical industries, and pull out of real estate and automotive." "Why putting your faith in gold is a bad idea. Fortunately, *Zero Hour* includes a range of practical strategies to help you turn the upheaval ahead to your advantage, so your family can be prepared and protected.

#1 NEW YORK TIMES BESTSELLER "A memoir of leadership and success: The executive chairman of Disney, Time's 2019 businessperson of the year, shares the ideas and values he embraced during his fifteen years as CEO while reinventing one of the world's most beloved companies and inspiring the people who bring the magic to life. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR Robert Iger became CEO of The Walt Disney Company in 2005, during a difficult time. Competition was more intense than ever and technology was changing faster than at any time in the company's history. His vision came down to three clear ideas: Recommit to the concept that quality matters, embrace technology instead of fighting it, and think bigger--think global--and turn Disney into a stronger brand in international markets. Today, Disney is the largest, most admired media company in the world, counting Pixar, Marvel, Lucasfilm, and 21st Century Fox among its properties. Its value is nearly five times what it was when Iger took over, and he is recognized as one of the most innovative and successful CEOs of our era. In *The Ride of a Lifetime*, Robert Iger shares the lessons he learned while running Disney and leading its 220,000-plus employees, and he explores the principles that are necessary for true leadership, including: "Optimism. Even in the face of difficulty, an optimistic leader will find the path toward the best possible outcome and focus on that, rather than give in to pessimism and blaming." "Courage. Leaders have to be willing to take risks and place big bets. Fear of failure destroys creativity." "Decisiveness. All decisions, no matter how difficult, can be made on a timely basis. Indecisiveness is both wasteful and destructive to morale." "Fairness. Treat people decently, with empathy, and be accessible to them. This book is about the relentless curiosity that has driven Iger for forty-five years, since the day he started as the lowliest studio grunt at ABC. It's also about thoughtfulness and respect, and a decency-over-dollars approach that has become the bedrock of every project and partnership Iger pursues, from a deep friendship with Steve Jobs in his final years to an abiding love of the Star Wars mythology. "The ideas in this book strike me as universal" Iger writes. "Not just to the aspiring CEOs of the world, but to anyone wanting to feel less fearful, more confidently themselves, as they navigate their professional and even personal

lives.
