Documents the story of a first British female agent in World War II, providing coverage of her mixed heritage, daring missions in numerous countries, significant intelligence contributions and subsequent murder by an obsessive colleague. By the award-winning author of The Woman Who Saved the Children."

The remarkable story of Krystyna Skarbek, aka Christine Granville, George Medal, OBE and Croix de Guerre. In June 1952, a woman was murdered by an obsessive colleague in a hotel in South Kensington. Her name was Christine Granville. That she died young was perhaps unsurprising, but that she had survived the Second World War was remarkable. The daughter of a feckless Polish aristocratic and his wealthy Jewish wife, she would become one of Britain's most daring and highly decorated secret agents. Having fled Poland on the outbreak of war, she was recruited by the intelligence services long before the establishment of the SOE, and took on mission after mission. She skied over the hazardous High Tatras into Poland, served in Egypt and North Africa and was later parachuted into Occupied France, where an agent's life expectancy was only six weeks. Her courage, quick wit and determination won her release from arrest more than once, and saved the lives of several fellow officers, including one of her many lovers, just hours before their execution by the Gestapo. More importantly, perhaps, the intelligence she gathered was a significant contribution to the Allied war effort and her success was reflected in the fact that she was awarded the George Medal, the OBE and the Croix de Guerre.

Pham Xuan An was a brilliant journalist and an even better spy. A friend to all the legendary reporters who covered the Vietnam War, he was an invaluable source of news and a font of wisdom on all things Vietnamese. At the same time, he was a masterful double agent. An inspired shape-shifter who kept his cover in place until the day he died, Pham Xuan An ranks as one of the preminent spies of the twentieth century. When Thomas A. Bass set out to write the story of An's remarkable career for The New Yorker, fresh revelations arrived daily during their freewheeling conversations, which began in 1992. But a good spy is always at work, and it was not until An's death in 2006 that Bass was able to lift the veil from his carefully guarded story to offer up this fascinating portrait of a hidden life. A masterful history that reads like a John le Carré thriller, The Spy Who Loved Us offers a vivid portrait of journalists and spies at war.
