"Taxman" is a song by the English rock band  
the Beatles from their 1966 album Revolver.  
Written by the group's lead guitarist, George  
Harrison, with some lyrical assistance from  
John Lennon, it protests against the higher  
level of progressive tax imposed in the  
United Kingdom by the Labour government of  
Harold Wilson, which saw the Beatles paying  
over 90 per cent of their earnings to the  
Treasury. The song was selected as the  
album's opening track and contributed to  
Harrison's emergence as a son

No doubt, the "tax man" has taken his share from June through August; the tax man being the affectionate term for sharks pulling an Old Man and the Sea routine and taking a bite or two out of hooked fish. I had quite a few reports this season of tuna being mauled by sharks during the battle, the common phrase "the tax man takes his share" especially appropriate in 2020.

Brian Cockerill has ruled his world with an iron fist. Using nothing but his hands as weapons, he has patrolled the streets, clubs and raves of Britain in order to keep order and to 'tax' those whose ill-gotten gains he sees fit to take a share of. Yet despite his appalling record of aggression, Brian is a man who lives by rules and respect.

Indian who's as big as Hulk Hogan, or against the IRS, which is even bigger than Hulk Hogan. When IRS Special Agent Elliott Mess, who looks like Robert Stack as Elliott Ness in "The Untouchables," steals Samson's money, they get into an altercation. At his trial for tax evasion, and assaulting an IRS agent, Samson is asked why he filed no tax returns for 17 years. He says he forgot. The jury buys this argument, but Mess rigs the trial. Samson decides he ain't gonna take it anymore. He declares war against the United States government. Guess who wins.

An engaging and enlightening account of taxation told through lively, dramatic, and sometimes ludicrous stories drawn from around the world and across the ages Governments have always struggled to tax in ways that are effective and tolerably fair. Sometimes they fail grotesquely, as when, in 1898, the British ignited a rebellion in Sierra Leone by imposing a tax on huts—and, in repressing it, ended up burning the very huts they intended to tax. Sometimes they succeed astonishingly, as when, in eighteenth-century Britain, a cut in the tax on tea massively increased revenue. In this entertaining book, two leading authorities on taxation, Michael Keen and Joel Slemrod, provide a fascinating and informative tour through these and many other episodes in tax history, both preposterous and dramatic—from the plundering described by Herodotus and an Incan tax

payable in lieu to the (misremembered) Boston Tea Party and the scandals of the Panama Papers. Along the way, readers meet a colorful cast of tax rascals, and even a few tax heroes. While it is hard to fathom the inspiration behind such taxes as one on ships that tended to make them sink, Keen and Slemrod show that yesterday's tax systems have more in common with ours than we may think. Georgian England's window tax now seems quaint, but was an ingenious way of judging wealth unobtrusively. And Tsar Peter the Great's tax on beards aimed to induce the nobility to shave, much like today's carbon taxes aim to slow global warming. *Rebellion, Rascals, and Revenue* is a surprising and one-of-a-kind account of how history illuminates the perennial challenges and timeless principles of taxation—and how the past holds clues to solving the tax problems of today.

The inside story of H&R Block's entrepreneurial founder Henry Bloch In 1955 Henry Bloch and his brother Dick founded H&R Block. Through a mixture of hard work and luck, they transitioned this Kansas City based bookkeeping business into a tax preparation firm just as the IRS stopped preparing tax returns for people. Over the course of more than fifty years, the company grew to become the largest tax preparation firm in the world, serving more than twenty million clients a year. *Many Happy Returns* tells the compelling story of this company

Over the last two decades, Brian Cockerill has ruled his world with an iron fist. Using nothing but his hands as weapons, he has patrolled the streets, clubs and raves of Britain in order to keep order and to 'tax' those whose ill-gotten gains he sees fit to take a share of. Drug dealers and shady club promoters everywhere know that, if The Taxman is in town, it's time to pay up or get out. All know of the appalling violence this man can exert on his enemies, and of the incredible presence of body and mind that he possesses. Yet despite his appalling record of aggression, Brian is a man who lives by rules and respect - balanced yet unpredictable, he has never used weapons, and those who have used arms against him have barely lived to regret it. The facts of his life are as amazing and awe-inspiring as they are true.

Twelve years ago, Richard Yancey answered a blind ad in the newspaper offering a salary higher than what he'd made over the three previous years combined. It turned out that the job was for the Internal Revenue Service -- the most hated and feared organization in the federal government. So Yancey became the man who got in his car, drove to your house, knocked on your door, and made you pay. Never

mind that his car was littered with candy wrappers, his palms were sweaty, and he couldn't remember where he stashed his own tax records. He was there on the authority of the United States government. With "a rich mix of humor, horror, and angst [and] better than most novels on the bestseller lists" (Boston Sunday Globe), *Confessions of a Tax Collector* contains an astonishing cast of too-strange-for-fiction characters. But the most intriguing character of all is Yancey himself who -- in detailing how the job changed him and how he managed to pull himself back from the brink of moral, ethical, and spiritual bankruptcy -- reveals what really lies beneath those dark suits and mirrored sunglasses. This P.S. edition features an extra 16 pages of insights into the book, including author interviews, recommended reading, and more.

A soul-wrenching tale of one family falsely accused of criminal tax evasion. Nathan and Elly arrived in Canada in 1973, after travelling five years on horseback through the three Americas. They became Canadian citizens, raised a family and carved a ranch out of the wilderness in northern British Columbia with Belgian draft horses. In 2006, inexplicably, the family was swept up in the Canada-wide wave of terror originating with the Harper government, intended to spread fear among small business owners, and, through fear, taxpayer compliance. And to

divert attention from the off -shore tax havens of the rich. Trail hardened and resilient, Nathan and Elly would not allow themselves to become victims of a bully. They launched a civil lawsuit against the tax agency that attacked them without merit, mercy, or fact. They acted as their own lawyers. The battle lasted ten years. This small book has a big message: when you have the guts to stand up for what you believe, no one has power over you!
