There is more to life than merely being, even in this very moment, even if it's all we are certain to have. There is more to life than this.

Blending together personal stories, anecdotes, and client readings, the star of TLC's "Long Island Medium" shares her world and her gift of communicating with those who have crossed over to the other side.

Have you ever asked yourself any of the following questions: Why are we here on earth? Is there really a Supreme Being who created the universe? When we die, do we rot in a grave or is there a heaven? If there is a heaven, how can we communicate with loved ones who've already crossed over? Are we the only life created by God or are there others like us? Have you ever wondered how the supernatural perceptions of psychics, mediums, and channels relate to God? Expect some surprises when reading Is There More To Life Than What We Know? Remember to keep an open mind - you might find yourself getting answers to some of those "what if" questions, although not necessarily the answers you were expecting. For all us who have ever looked into the night sky and wondered if there is more to life than what we know – this book is a must-read!

"Traditionally, scientists have emphasized what they call the first and second natures of personality--genes and culture, respectively. But today the field of personality science has moved well beyond the nature vs. nurture debate. In Who Are You, Really? Dr. Brian Little presents a distinctive view of how personality shapes our lives--and why this matters. Little makes the case for a third nature to the human condition--the pursuit of personal projects, idealistic dreams, and creative ventures that shape both people's lives and their personalities. Little uncovers what personality science has been discovering about the role of personal projects, revealing how this new concept can help people better understand themselves and shape their lives" -- provided by publisher.

Bjork is the most successful radical rock experimentalist of her generation. Contrary, inimitable, and gloriously her own, she has awed her famously dedicated fans for more than a decade with a swooping, querulous voice that has been likened to a glass not quite breaking. Bursting onto the Icelandic musical scene with a precocious album at the age of 11 and a series of releases in the 1980s that notably include her work with the Sugar Cubes, Bjork soon found herself gaining international renown as she released the jazzy Gling-Glo and her breakout solo album Debut. Since then the superstar wordsmith has continued to produce idiosyncratic, well-received works. In 1995 Bjork combined hit-making tunes with her maverick sounds to produce Post, and then after working with an army of collaborators, Telegram. Two years later, Homogenic took listeners on a compelling journey through the outer reaches of electronica. Again abruptly switching directions, Bjork starred as a blind mother in the critically acclaimed Dancer in the Dark, producing the renowned Selmasongs soundtrack. Returning to explorations of herself the next year, she produced Vespertine, an intimate and sensual fan favorite that continues to sell well. Drawing on years of experience covering Bjork and her industry, music journalist Ian Gittins explores and celebrates the creative processes and motivations behind her amazing career and musical history. With 70 color and black-and-white photographs, Bjork is a must-have for her legions of devoted fans.

For anyone exhausted or disillusioned by the perpetual pursuit of personal happiness, here is the antidote: a book about the pursuit of meaning, a better route to a fulfilling life. We have a lot to be happy about. And yet, we're more dissatisfied than ever. In The Power of Meaning, Emily Esfahani Smith argues that we've been chasing the wrong thing. It's not happiness that makes life worth living--it's meaning. Drawing on the latest cognitive science research, as well as insights from literature and philosophy and her own prodigious reporting, Smith shows that by developing a "meaning mindset," we can all achieve a deeper satisfaction. With a warm, assured voice that moves effortlessly from George Eliot and Aristotle to Monty Python and Louis C.K., Smith spells out the four pillars of the meaning mindset: cultivating connections to others, working toward our life's purpose, telling stories about our place in the world, and finding transcendence. And she shows us how we can lean on the pillars in difficult times, and how we might begin to build a culture of meaning in our families, our workplaces, and our communities. Stirring, inspiring, and story-driven, The Power of Meaning will strike a profound chord in anyone seeking more in life.

When her mother passed away, author Heta Pandit found herself the owner of four historic houses. All of Pandits conversations revolve around her four houses: their upkeep, their leaking roofs, their Minton floors, their refurbishments, their stories, and the spirits that inhabit them. In Theres more to Life than a House in Goa, she offers a personal history of the houses she owns in Mumbai, Panchgani, and Goa in India. Interwoven with the stories of several generations, this memoir is not just about houses, but it also shares a capsule on social history at a micro level. It provides a reflection of the eccentricities and quirks of the extraordinary community of Parsis, immigrants from Iran, and their adaptation to the social and cultural customs in the land of their adoption. Theres more to Life than a House in Goa talks about personal history and recalls family values, remembering the way things were. After all, the stories of the houses are also the stories of the people who inhabit them.

At the age of thirty, just as everything was falling into place for him, Lee Pesky died of brain cancer. For his father, Alan, grief came with the realization that he had lost the chance to love Lee as he was—not as he wanted him to be. Ambitious, successful, and always striving for more, Alan had a hard time relating to a son who struggled with learning disabilities at a time when there was little understanding or help for kids who had them. Their relationship was complicated, and now, Lee was gone. More to Life than More is a memoir of misunderstanding, loss, and learning. After Lee's death, Alan's conception of more crumbles. He launches himself into keeping Lee's memory alive by helping kids in a way he wasn't able to help his son. It was too late to change his relationship with Lee, but he could create something positive and enduring from his loss: Lee Pesky Learning Center, a non-profit in Idaho dedicated to understanding and helping those with learning differences. In 25 years, LPLC has benefited more than 100,000 children and has become a national force for early childhood literacy. And for Alan, it has meant getting to know the son he had misunderstood and lost.

The story of Buzz Bee, who begins to wonder why everyone in the hive is rushing around, serves as a fable of spiritual enlightenment.

Bill Murchison -- a straight-talking Texan -- surveys the rich variety of ordinary life with the unpretentious wit that has made him one of America's favorite syndicated columnists.

From two-time Carnegie Medal winner Patrick Ness comes an enthralling and provocative new novel chronicling the life — or perhaps afterlife — of a teen trapped in a crumbling, abandoned world. A boy named Seth drowns, desperate and alone in his final moments, losing his life as the pounding sea claims him. But then he wakes. He is naked, thirsty, starving. But alive. How is that possible? He remembers dying, his bones breaking, his skull dashed upon the rocks. So how is he here? And where is this place? It looks like the suburban English town where he lived as a child, before an unthinkable tragedy happened and his family moved to America. But the neighborhood around his old house is overgrown, covered in dust, and completely abandoned. What's going on? And why is it that whenever he closes his eyes, he falls prey to vivid, agonizing memories that seem more real than the world around him? Seth begins a search for answers, hoping that he might not be alone, that this might not be the hell he fears it to be, that there might be more than just this. . . .
