Featuring spreads each with raised shaped objects that fit into scooped cutouts on their opposite page, these two new TouchThinkLearn books offer the youngest learners an irresistible opportunity to explore their universe in a hands-on, multisensory way. Seeing the image, tracing its shape, saying its name: these modes of perception combine in a dynamic way to stimulate understanding of essential concepts. Discover—and experience a train by tracing the raised railcar on one side and feeling the excavated shape of the track on the other! Clusters of related words on each spread offer parents and children a springboard for further conversations to encourage the language skills so crucial to later successful learning. In a format unlike any other, these groundbreaking books translate abstract thought into tangible knowledge.

High design, brilliant graphics, essential learning skills—these features distinguish the TouchThinkLearn titles, presenting knowledge in a new dimension. Xavier Deneux applies the same unique vision that informed TouchThink-Learn: ABC to this year's most innovative counting book. Die-cut numerals and shapes stimulate understanding of essential concepts, inviting youngest readers to engage in a meaningful and tangible hands-on experience of numbers by tracing figures and shapes to coordinate concepts and images.

Introducing TouchThinkLearn books, a format unlike any other. Combining scooped-out die-cuts with raised, shaped elements, each book is designed to offer the youngest learners an irresistible opportunity to explore their universe in a hands-on, multisensory way. Seeing the image, tracing its shape, saying its name: these modes of perception combine in a dynamic way to stimulate understanding of essential concepts. Experience green both in the beauty of a raised leaf's surface as well as in the caterpillar that munches on the leaf's edge. Celebrate a moon rising into the night, while simultaneously a sun sets deep into the mirroring page. Translating abstract thought into tangible knowledge, groundbreaking TouchThinkLearn books give early learning new dimension.

Next up for the original TouchThinkLearn series, FEELINGS engages with classic emotions, from joy to anger. Like the original TTL titles, this ingenious continuation uses the same cut-out 'depressed' areas of the page as a creative space. The groundbreaking TouchThinkLearn books offer the youngest learners an opportunity to explore in a hands-on, multisensory way. Seeing the image, tracing its shape, saying its name . . . these modes of perception combine to stimulate understanding of essential concepts. Related words on each spread offer parents and children a springboard for further conversation to encourage the language skills crucial to later successful learning. In a format unlike any other, these groundbreaking books translate abstract thought into tangible knowledge.

Featuring spreads with raised, shaped objects that fit into scooped cutouts on their opposite page, these new TouchThinkLearn books offer the youngest learners an opportunity to explore in a hands-on, multisensory way. Seeing the image, tracing its shape, saying its name—these modes of perception combine to stimulate understanding of essential concepts. Discover a polar bear by tracing its raised outline on one side, and the concave shape of its cozy den on the other! Related words on each spread offer a springboard for further conversation to encourage the language skills crucial to later successful learning. In a format unlike any other, these groundbreaking books translate abstract thought into tangible knowledge.

Part of the bestselling TouchThinkLearn series! TouchThinkLearn: Build is a tactile board book with removable--and movable--characters and elements. The movable pieces invite and involve the reader in this story of building not only a home, but a family as well. * Made in the landmark TouchThinkLearn format--over 850,000 copies sold in the series! * Educationally rich with brilliant, multisensory aesthetics * Features the toddler-favorite production technique of glued on pieces dovetailing with die-cut openings TouchThinkLearn: Build perfectly realizes the interactivity of construction by giving readers a hands-on role with 12 toddler-safe play pieces. At the same time, this sturdy board book

Read PDF Touchthinklearn Vehicles

offers a gentle but powerful message that building a home--and building a family--are important components of life. * Ideal for children ages 2 to 4 years' old * Utilizes puzzle-like play pieces to create a complete on-and off-the-page immersive play experience * Resonates year-round as a go-to new baby gift for baby showers, birthdays, holidays, and more * Perfect for parents, grandparents, and caregivers of construction-loving kids * Add it to the shelf with books like Build a Block by Christopher Franceschelli, Playtown: Construction: A Lift-the-Flap-Book by Roger Priddy, and Snuggle the Baby by Sara Gillingham.

A bird arrives, alights on a tree, finds a mate, and builds a nest. Soon its eggs will hatch and one brave hatchling will embark on its first flight. A deceptively simple and joyful celebration of the natural cycle of life, this book adds the bonus of removable--and movable--characters and scenery to the bestselling TouchThinkLearn format, featuring the hallmark production technique of glued-on pieces dovetailing with die-cut openings. In this first narrative title in the series, the movable pieces invite and involve the reader in a meaningful and multisensory participation in the story.

Featuring spreads with raised shaped objects that fit into scooped cut-outs on their opposite page, this new TouchThinkLearn book offers the youngest learners an opportunity to explore in a hands-on, multisensory way. Seeing the image, tracing its shape, saying its name--these modes of perception combine to stimulate understanding of essential concepts. Discover a bee and its hive by tracing the raised outline on one side, and the concave shape on the other! Related words on each spread offer parents and child a springboard for further conversation to encourage the language skills crucial to later successful learning. In a format unlike any other, these groundbreaking books translate abstract thought into tangible knowledge.
