tricks cover four broad areas of social science: the creation of the "imagery" to guide research; methods of "sampling" to generate maximum variety in the data; the development of "concepts" to organize findings; and the use of "logical" methods to explore systematically the implications of what is found. Becker's advice ranges from simple tricks such as changing an interview question from "Why?" to "How?" (as a way of getting people to talk without asking for a justification) to more technical tricks such as how to manipulate truth tables.

Becker has extracted these tricks from a variety of fields such as art history, anthropology, sociology, literature, and philosophy; and his dazzling variety of references ranges from James Agee to Ludwig Wittgenstein. Becker finds the common principles that lie behind good social science work, principles that apply to both quantitative and qualitative research. He offers practical advice, ideas students can apply to their data with the confidence that they will return with something they hadn't thought of before. gunfighter doesn't live to a ripe old age. Making a living from slapping leather will do that. So he's surprised to learn that one of the most feared elder statesmen of gunfire is still breathing—and looking for him. Over the years, "Two-Cent" Luke Drogan has put down more men than most undertakers. With ice for blood and nerves of steel, he has survived a lifetime of hot lead, leaving bodies in his wake. Now, like an old wolf that's outlived all his prey, Drogan knows he has only one thing left to do: face down the Gunsmith—and kill him. Two masters of the six-gun. Two
