SERVICE & MAINTENANCE. Tsudakoma tables are the premier Japanese manufacturer and led the way in the late 1970's with the very first of their excellent rotary table products, many of which are still running successfully in the field today. Having run for so many years, perhaps it is about time they had some care and attention, we all need it!

Industrial Practices in Weaving Preparatory covers the basic concepts of winding, warping, and sizing processes. The book includes critical comparisons between various industrial concepts, practices, and processes of winding warping and sizing. Weaving preparatory machine manufacturers have registered remarkable developments and innovations in this field, and the book covers all latest developments of above-said topics.

A mixture of science and art, weaving is nearly as old as human history. Despite the many technological advances in the field, however, it is still virtually impossible to control each individual fiber in a woven structure. To help you meet this and other weaving
