Engagement? It is the number of shares, likes, and comments. A big following is great, but an engaged audience is better than a big one--quality over quantity. There are certain metrics used to measure

Online Library Twitter User Guide

social media engagement. They include: Use of branded hashtags. Mentions. Click-throughs. Audience and followers' growth. Likes. Comments. Retweets/shares. Your followers can naturally start engaging with your

Online Library Twitter User Guide

content. But often, you may need to encourage them a little. Here are a few tricks to help you with that. Assess your engagement: see how many followers you have, the average number of shares and

Online Library Twitter User Guide

comments you get on each post and any other relevant numbers. Make sure you continue monitoring these numbers. Choose your strategy: every company has different goals and strategies are, thus,

Online Library Twitter User Guide

Introduction To Twitter

Page 73/85

Online Library Twitter User Guide

Profits It's likely that you've heard of Twitter, and perhaps you've even tried to become an active member of this incredibly popular information network. With Twitter, people within the community post what are

Online Library Twitter User Guide

referred to as 'tweets'. Tweets are short messages and updates that people send out to everyone who chooses to follow them. Each time a tweet is submitted, it shows up on the public timeline, and is pushed down as other,

Online Library Twitter User Guide

new tweets are circulated throughout the network. And while Twitter requires consistent activity in order to really take full advantage of its incredible resources, you can begin building a targeted list in

Online Library Twitter User Guide

little time, while generating a massive 'following' of those who are interested in receiving your updates. Within the twitter community, people who choose to add you as a contact are referred to as 'followers',

Online Library Twitter User Guide

and similar to a mailing list, each follower can be considered a 'lead'. This is yet another way that growing a twitter following is similar to building an effective mailing list. Each follower you receive should

Online Library Twitter User Guide

be interested in the niche market you are catering to, so building massive following bases isn't the way to go. Instead, you want to build QUALITY lists of followers that are genuinely interested in your

Online Library Twitter User Guide

broadcasts and likely to respond to your offers and messages. Think about twitter in a similar way as you would when building a mailing list or newsletter base. If you have 100 targeted leads who have

Online Library Twitter User Guide

decided to subscribe to your ezine and actively respond to your offers, and on another list you have 1,000 leads who are not genuinely interested in what you are offering, which list do you believe would produce the

best results or will be easier to monetize?
