and associated technologies. This publication provides a new impetus to the dissemination of the Declaration, and is part of the organisation's continuous effort to contribute to the understanding of its principles worldwide. The authors, who were almost all involved in the elaboration of the text of the Declaration, were asked to respond on each article: Why was it included? What does it mean? How can it be applied? Their responses shed light on the historical background of the text and its evolution throughout the drafting process. They also provide a reflection on its relevance to previous declarations and bioethical literature, and its potential interpretation and application in challenging and complex bioethical debates.

Cultural diversity, because it is perceived to have significant security, developmental, and social implications, is fast becoming one of the major political issues of the day. At the international level, it overlaps with the now extensive debates on multiculturalism within states. This work shows how cultural diversity challenges the understanding of international relations as relations between states and, by looking at the issue through the magnifying glass of an international organization, offers innovative insights into the interplay between various levels of international society. The book examines in particular the role of UNESCO, the only United Nations agency responsible for culture and the main

interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.
