This volume highlights a broad selection of valuable research work by renowned professionals and scientists from academia and the travel industry, bridging academic perspectives and research with practical applications. It provides a wide-ranging vision of a multitude of trends in the global travel and tourism industry today and in the future. Adopting an integrated and interdisciplinary approach, the contributors examine a diverse selection of topics and share their research and exploratory investigations to frame their implications and outcomes. The volume reflects upon the wide-ranging conceptual approaches to the subject of tourism and includes varying paradigms and perspectives on the core elements of the tourism sector. The overall thrust of the book is to provide a required critical depth to tourism studies and to guide the reader through the fundamental themes of tourism, destination marketing, branding, and management.

In the face of rapid industrialisation in the last few decades, the tourism economy has blossomed into a major industry with positive impacts such as economic growth, infrastructure development, employment, and income generation. However, tourism brings negative environmental effects such as degradation of landscapes and habitats, increased vulnerability of avifauna and wildlife, and pollution leading to the decline of species. Environmental Impacts of Tourism in Developing Nations is a pivotal reference source that explores some of the critical challenges faced in the tourism economy particularly with regard to the impacts on the environment in developing nations. It also explores the impact tourism plays in the biophysical environment such as the issue of climate change. While highlighting topics such as environmental justice, ecosystems, and ecotourism, this book is ideally designed for academicians, policymakers, environmentalists, tourism professionals, and graduate-level students seeking current research on the environmental and economic impacts of tourism.

This book, edited by the European Space Policy Institute, is the first international publication, following UNISPACE+50, to analyze how space capacity building can empower the international community towards fully accessing all the economic and societal benefits that space assets and data can offer. New innovation models are increasingly spreading across various sectors and disciplines, including space, which is becoming an integral part of many societal activities (e.g. telecoms, weather, climate change and environmental monitoring, civil protection, infrastructures, transportation and navigation, healthcare and education). The book helps readers construct their own space capacity building roadmaps, which take into account key stakeholders and also new private actors, NGOs and civil society. Starting from a policy and strategy perspective, it addresses key aspects of capacity building, including innovation and exploration, global health, climate change and resilient societies. It outlines the available options and summarizes the ideal programmatic conditions for their successful implementation. Showcasing reflections from a range of senior space professionals around the

world, with their unique perspectives and solutions, it provides a rich mosaic in which various cultural and policy approaches to space are translated into actionable programs and ideas so that space may truly benefit all of humankind.

Globalization has proliferated business with numerous challenges and opportunities, and simultaneously at other end the growth in economy, population, income and standard of living has redefined the scope of business and thus the business houses approaches. A highly competitive environment, knowledgeable consumers and quicker pace of technology are keeping business enterprises to be on their toes. Today management and its concepts have become key for survival of any business entity. The unique cultural characteristics, tradition and dynamics of consumer, demand an innovative management strategy to achieve success. Effective Management has become an increasingly vital ingredient for business success and it profoundly affects our day-to-day life. Today, the role of a business houses has changed from merely selling products and services to transforming lives and nurturing lifestyles. The Indian business is changing and so do the management strategies. These changing scenarios in the context of globalization will bestow ample issues, prospects and challenges which need to be explored. The practitioners, academicians and researchers need to meticulously review these aspects and acquaint them with knowledge to sustain in such scenarios. Thus, these changing scenarios emphasize the need of a broad-based research in the field of management also reflecting in management education. This book is an attempt in that direction. I sincerely hope that this book will provide insights into the subject to faculty members, researchers and students from the management institutes, consultants, practicing managers from industry and government officers.

India is a treasure of natural surroundings, scenic beauties, historical monuments, hill ranges, pilgrimage places, colourful picnic spots etc. In this study the author has given regionwise many information for the people who wish to see india and its culture.

Tourism is acclaimed to be one of the world's biggest revenue generating industries accounting for billions of dollars and thousands of jobs. Technological innovations, urbanization, improvement in living standard, introduction of fuel efficient cars made journeys relatively easier. All these factors have generated a vibrant tourism activity and brought a bloom in domestic tourism. The tourism sector is having multiplier effect on the economy and its contribution to the GDP is one of the highest and its ability to generate employment is much more than any other sector. It is the largest single employer and industry in several island nations. The World Travel & Tourism Council calculated that tourism generated at an average annual rate of 7.9% from 2013 to 2023. This gives India the third rank among countries with the fastest growing tourism industries over the next decade. India's rich history and its cultural and geographical diversity make its international tourism appeal large and diverse. It presents heritage and cultural tourism along with medical, business, educational and sports tourism. Water is an attractive element and plays an important role in recreation and holidays. Rivers, Lakes, Waterfalls have an aesthetic significance for attracting tourists. Today, there are a number of established lake tourism destinations all over the world. Water tourism assumes significance in the national economies of several European and Asian countries. There are several water based tourism destinations in the world which are very popular and drawing large number of both domestic and international tourists across the world. In India such as Rivers, Tanks, Lakes and Waterfalls etc., All these water bodies are sources of life for flora and fauna. All the important cities in India have been developed on the banks of the Rivers and Lakes from Ancient times. These water bodies provided irrigation facilities and became great centers of civilizations. Those centers are also popular as pilgrimage canters, since ancient times and are all also emerging as tourism destinations in modern times. The author has tried to make harmonious blend of theory and practice, which hopefully will make the book more useful to the students, teachers and practicing tourism professionals. The author would appreciate constructive comments and suggestions from the students, teachers, practicing tour planners and executives in the improvements of this book.
