Tie-dye is a modern term invented in the mid-1960s in the United States (but recorded in writing in an earlier form in 1941 as "tied-and-dyed", and 1909 as "tied and dyed" by Luis C. Changsut, referenced below) for a set of ancient resist-dyeing techniques, and for the products of these processes. The process of tie-dye typically consists of folding, twisting, pleating, or crumpling fabric or ...

Tie dye is a way of making colourful patterns on fabric. This is done by folding, tying or crumpling fabric, then applying dye. The dye won't be able to reach into the folded fabric so you'll get some fun effects. The bonus is that every single item you tie dye is going to be different so the finished results are always a bit of a surprise.

Take tie dye to the next level with this in-depth visual guide! Capture bursts of color in intricate waves and patterns with expert tips from the women behind PrettyLifeGirls.
