When Vows Are Said Out Of Necessity Can Love Really Grow? Susan Farr loses her parents and her home in one swoop. She takes her horse and rides to Independence Missouri to join a wagon train and start a new life. Mike Todd, the Wagon Master doesn't allow single women to have their own wagons. It causes fights and distractions. Susan solves her problem by marrying Clancy Willis in name only. Unfortunately Clancy's true nature doesn't take long to show and Susan finds herself married to a drunkard. Along the trail, once again, Susan is forced to marry another man in name only and this time it is Mike Todd. As soon as they make it to Oregon they plan to have the marriage annulled but their hearts become hopelessly entangled. Mike Todd has two brothers to raise. They are guides on the wagon train and he decided long ago he'd raise them and forget about having a wife and child of his own. Little does he know that he'd find a forever type of love. Both vow to sacrifice their hearts' desire to give the other happiness. Will they come to realize their lives and love have only just begun?

Former high desert rancher Ellen Waterston writes of a wild, essentially roadless, starkly beautiful part of the American West. Following the recently created 750-mile Oregon Desert Trail, she embarks on a creative and inquisitive exploration, introducing readers to a "trusting, naïve, earnest, stubbly, grumpy old man of a desert" that is grappling with issues at the forefront of national, if not global, concern: public land use, grazing rights for livestock, protection of sacred Indigenous ground, water rights, and protection of habitat for endangered species. Blending travel writing with memoir and history, Waterston profiles a wide range of people who call the high desert home and offers fresh perspectives on nationally reported regional conflicts such as the Malheur Wildlife Refuge occupation. Walking the High Desert invites readers "wherever they may be" to consider their own beliefs, identities, and surroundings through the optic of the high desert of southeastern Oregon.

Superbly balanced pinot noirs; crisp rieslings; rich, heady syrahs: these are only a fraction of the expertly crafted wines being produced in the Pacific Northwest's diverse and distinctive wine countries. Second only to California in production, the Pacific Northwest is the largest wine region in North America, home to more than 1,000 wineries. What was once a young wine-growing area with a reputation for eccentricity is today recognized as a dynamic region producing world-class wines, with a focus on ecologically sound practices. This definitive volume profiles the wines, the people who make them, and the wine countries of Washington, Oregon, British Columbia, and Idaho. The journey begins with the region's climates and geology, which create a fascinating tapestry of wine-growing areas. Next, the book focuses on the unique qualities of each wine region, with profiles of more than 160 representative wineries to visit. Included are legacy wineries that helped to build the region's reputation, prestige wineries with a national presence, under-the-radar artisan wineries that embody the pioneering spirit of the Northwest, and promising new wineries. Each profile lists the winery's signature, premium, value, and estate wines. Beautifully illustrated with photographs and helpful maps, this in-depth guide is a milestone in the North American literature on wine. It will enable wine lovers everywhere to plan their touring, select their wines, and explore and discover the riches of the Northwest's wine country.

Over the past 40 years craft-brewed beer has exploded in growth. In 1980, a handful of "microbrewery" pioneers launched a revolution that would challenge the dominance of the national brands, Budweiser, Coors, and Miller, and change the way Americans think about, and drink, beer. Today, there are more than 2,700 craft breweries in the United States and another 1,500 are in the works. Their influence is spreading to Europe's great brewing nations, and to countries all over the globe. In *The Craft Beer Revolution*, Steve Hindy, co-founder of Brooklyn Brewery, tells the inside story of how a band of homebrewers and microbrewers came together to become one of America's great entrepreneurial triumphs. Beginning with Fritz Maytag, scion of the washing machine company, and Jack McAuliffe, a US Navy submariner who developed a passion for real beer while serving in Scotland, Hindy tells the story of hundreds of creative businesses like Deschutes Brewery, New Belgium, Dogfish Head, and Harpoon. He shows how their individual and collective efforts have combined to grab 10 percent of the dollar share of the US beer market. Hindy also explores how Budweiser, Miller, and Coors, all now owned by international conglomerates, are creating their own craft-style beers, the same way major food companies have acquired or created smaller organic labels to court credibility with a new generation of discerning eaters and drinkers. This is a timely and fascinating look at what America's new generation of entrepreneurs can learn from the intrepid pioneering brewers who are transforming the way Americans enjoy this wonderful, inexpensive, storied beverage: beer.

The third in a series about how a young single mother, faced with the task of keeping an inn and winery going in Oregon wine country, becomes the matriarch of a family filled with love and unexpected surprises as the inn continues to grow into a well-known hotel. Louise "Lulu" Kingsley is thrilled to discover after years of wishing for a sibling, Cami Chandler is her half-sister. When Cami invites her to live with her at Chandler Hill, Lulu jumps at the chance to leave behind all the heartache in her recent life. Not the spoiled little rich girl the media would like everyone to think, Lulu digs into marketing for the inn and winery, feeling more comfortable there than she ever did in California with her political father. Better yet, her mother is becoming a stronger, happier person and shares the idea of becoming part of a new family. Even though Lulu is aware that Miguel Lopez is the kind of guy who represents everything she's trying to forget, she's attracted to him. Following a heartbreaking situation, she steps away from their relationship. Lulu settles in at Chandler Hill, coping the best way she knows—by working hard. But when Cami's beloved grandfather, Rafe, has a stroke, Lulu realizes life is short and knows she must make things right with Miguel, and learns that home is where your heart leads you. A great read with a glass of wine or anytime! Journey To Genoa is based on the remarkable lives of Benjamin T. and Jane Jones who along with their children, migrate to America on the Buena Vista, the first Latter Day Saints or Mormon ship to sail from Wales to America with converts in 1849. Two days before the ship docks in New Orleans, the Jones family, having exposed the Mormon practices of communicating with the spirits and polygamy, is excommunicated by the Latter Day Saints. Follow their journey as they make their way alone in a strange land starting in New Orleans, then working their way West to St. Louis, where the tragedy of the cholera claims the lives of three family members, then across the plains where they encounter hostile Indians, violent weather and the near death of their infant daughter. In Salt Lake City, they again confront the Mormon hierarchy. Prophet and Territorial Governor, Brigham Young throws the five Jones men in the stockade. Persuaded by the women in the family, the US Cavalry not only rescues the men, but escorts the family out of the Valley towards the Gold Fields of California. Much has been written about the 'soiled doves' of the Gold Rush, but little has been written about the respectable women who joined their husbands with their families in the Gold Fields. The Jones women take advantage of the laws of their new country that enabled them to own businesses in their own name, not just their husbands, one of which is a partnership with Levi Strauss in the beginning of his 'Levi pants' empire. Eighteen months later their success rivals that of their husbands in the Gold Fields. With their new found wealth, they cross back across the Sierra and establish a home in the rich Carson Valley, Utah Territory. There they are part of the founding of the Nevada Territory and the State of Nevada.

The search for her sisters will become a spiritual journey for the entire family. Raised by her father, Catherine McKenna has never lacked for anything, surrounded by people to take care of her every need. On her eighteenth birthday she discovers that not only did her mother die when she was born, but she also has two identical sisters. Although her father vowed not to look for his daughters, Catherine made no such promise. Setting out on her own with one clue and her maid in tow, she's bound and determined to find her sisters. Collin Elliott has seen better days. After losing his ship to a violent and unexpected storm, he is trying to recover—physically and emotionally. When Angus McKenna sends him to find, follow, and protect his pampered daughter, he wants nothing more than to finish his task and return home. Can he help her find her sisters? And will the discoveries they make along the way teach them both what's most important in life?
