127. Work, Life and Leisure. In 1880, Durgacharan Ray wrote a novel, *Debganer Martye Agaman*. (The Gods Visit Earth), in which Brahma, the Creator in Hindu mythology, took a train to Calcutta with some other gods. As Varuna, the Rain God, conducted them around the capital of British India, the gods were wonderstruck by the big, modern city – the train itself, the large ships on the river Ganges, factories belching smoke, bridges and monuments and a dazzling array of shops selling a wide ...

You can download our Social Science Class 10th book immediately to score the top marks in class 10th Social Science.

This book traces the history of the relationship between work and leisure, from the ' leisure preference ' of male workers in the eighteenth century, through the increase in working hours in the later eighteenth and early nineteenth centuries, to their progressive decline from 1830 to 1970. It examines how trade union action was critical in achieving the decline; how class structured the experience of leisure; how male identity was shaped by both work and leisure; how, in a society that placed high value on work, a ' leisured class ' was nevertheless at the apex of political and social power – until it became thought of as ' the idle rich ' . Coinciding with the decline in working hours, two further tranches of time were marked out as properly without work: childhood and retirement. Accessible, wide-ranging and occasionally polemical, this book provides the first history of how we have imagined and used time.

Rural communities in Japan have suffered from significant depopulation and economic downturn in post-war years. Low birth rates, aging populations, agricultural decline and youth migration to large cities have been compounded by the triple disaster of 11 March 2011, which destroyed farming and fishing communities and left thousands of people homeless. This book identifies these challenges and acknowledges that an era of post-growth has arrived in Japan. Through exploring new forms of regional employment, community empowerment, and reverse migration, the authors address potential opportunities and benefits that may help to create and ensure the quality of life in depopulating areas and post-disaster scenarios. This book will be of interest not only to students of Japanese society, but also to those outside of Japan who are seeking new approaches for tackling depopulation challenges.

The tourism and hospitality industries are seeing continued success, which is why so many new businesses are trying to find a foothold in the field. However, the functions and responsibilities of management differ heavily between organizations within the tourism industry, such as the differences faced by big chain hotels, family owned hotels, and individually owned hotels. Understanding the methods of managing such companies is vital to ensuring their success. *Industrial and Managerial Solutions for Tourism Enterprises* is a pivotal reference source that focuses on the latest developments on management in the tourism and hospitality industries. Highlighting a range of topics including core competency, customer relationship management, and departmental relationships, this book is ideally designed for managers, restaurateurs, tour developers, destination management professionals, travel agencies, tourism media journalists, hotel managers, management consulting companies, human resources professionals, performance evaluators, researchers, academicians, and students.

How did Americans come to believe that working at home is feasible, productive, and desirable? *Easy Living* examines how the idea of working within the home was constructed and disseminated in popular culture and mass media during the twentieth century. Through the analysis of national magazines and newspapers, television and film, and marketing and advertising materials from the housing, telecommunications, and office technology industries, *Easy Living* traces changing concepts about what it meant to work in the home. These ideas reflected larger social, political-economic, and technological trends of the times. Elizabeth A. Patton reveals that the notion of the home as a space that exists solely in the private sphere is a myth, as the social meaning of the home and its market value in relation to the public sphere are intricately linked.

An innovative, student-friendly textbook covering the major elements of the field of Family Communication *Family Communication*, a rapidly growing sub-discipline within Communication Studies, explores the processes and factors involved in family interactions and relationships. *Communication in Family Contexts* is a clear and accessible survey of the essential principles, theories, and concepts of the field. Unlike textbooks that present a vast amount of material across only a few chapters—this innovative textbook features brief, easily-understood chapters ideally-suited for undergraduate courses on the subject. The text provides concise yet comprehensive coverage of a diverse range of topics, from fundamental aspects of caretaking and sibling communication, to topics not covered in other textbooks such as estrangement and marginalization. 33 chapters cover theories of family communication, family communication processes, and communicating in family relationships. The authors, noted researchers and educators in the field, complement discussions of standard topics with those of growing contemporary interest, such as LGBTQ family communication, step-family and half-sibling

relationships, and the influence of technology on family. This textbook: Provides a well-rounded examination of the major elements of Family Communication studies Explains the foundational theories of the field, including Family Communication Patterns Theory and Relational Dialectics Theory Features numerous practical application exercises to enable students apply theory to practice Includes a complete set pedagogical features, such as case studies, visualizations and models of theories, illustrations, and discussion questions Offers a flexible organizational structure that allows instructors to pick and choose chapters to meet the needs of their courses Communication in Family Contexts: Theories and Processes is an important resource for instructors and students in the field of family communication, the wider discipline of Communication Studies, and related areas such as social psychology and sociology.

This volume analyses the positive effects that tourism generates on resident 's quality of life, and how this influences tourists ' quality of life as they enjoy an enriching experience in the destination they visit. It provides significant theoretical and empirical contributions, as well as, case studies related to quality of life in hospitality and tourism marketing and management. This volume is the result of the effort that many researchers from all over the world have done to spread some new light on this outstanding research line and add knowledge on the relationship between tourism and quality of life of both residents and tourists. This last is highlighted as a fundamental factor to take into account for the development of new tourism practices. This volume is a true reference for researchers, students and professionals working in tourism marketing and management.
