In outlining the process for good writing, John Trimble focuses not only on the writing process but on the definition of good writing. His style is evidence that he knows his stuff: rather than being stiff, his writing is easy to read and easy to access. In fact, he hits the bulls-eye when he states that good writers are also good readers.

Writing Style "Giving the mundane its beautiful due" "A&P" author John Updike is known for the idea that seemingly ordinary aspects of American life (like grocery shopping) are actually quite fascinating. He called this, famously, "giving the mundane its beautiful due" (source).

This bestselling brief text is for anyone who needs tips to improve writing. Writing with Style is storehouse of practical writing tips-written in a lively, conversational style. This text provides insight into: how to generate interesting ideas and get them down on paper; how to write a critical analysis; how to write a crisp opener; how to invigorate a dull style; how to punctuate with confidence; how to handle various conventions-and much more.

A handbook for students explaining and demonstrating the basics of style and structure for essays and term papers.

Good Style explains the tactics that can be used to write technical material in a coherent, readable style. It discusses in detail the choices of vocabulary, phrasing and sentence structure and each piece of advice is based on evidence of the styles preferred by technical readers and supported by many examples of writing from a variety of technical contexts. John Kirkman draws from his many years of experience lecturing on communication studies in Europe, the USA, the Middle East and Hong Kong, both in academic programmes and in courses for large companies, research centres and government departments. Good Style has become a standard reference book on the shelf of students of science, technology and computing and is an essential aid to all professionals whose work involves writing of reports, papers, guides, manuals or on-screen texts. This new edition also includes information on writing for the web and additional examples of how to express medical and life-science information.

"A rich, generous book about writing and reading and Kurt Vonnegut as writer, teacher, and friend . . . Every page brings pleasure and insight."--Gail Godwin, New York Times bestselling author Here is an entirely new side of Kurt Vonnegut, Vonnegut as a teacher of writing. Of course he's given us glimpses before, with aphorisms and short essays and articles and in his speeches. But never before has an entire book been devoted to Kurt Vonnegut the teacher. Here is pretty much everything Vonnegut ever said or wrote having to do with the writing art and craft, altogether a healing, a nourishing expedition. His former student, Suzanne McConnell, has outfitted us for the journey, and in these 37 chapters covers the waterfront of how one American writer brought himself to the pinnacle of the writing art, and we can all benefit as a result. Kurt Vonnegut was one of the few grandmasters of American literature, whose novels continue to influence new generations about the ways in which our imaginations can help us to live. Few aspects of his contribution have not been plumbed--fourteen novels, collections of his speeches, his essays, his letters, his plays--so this fresh view of him is a bonanza for writers and readers and Vonnegut fans everywhere. "Part homage, part memoir, and a 100% guide to making art with words, Pity the Reader: On Writing with Style is a simply mesmerizing book, and I cannot recommend it highly enough!"--Andre Dubus III, #1 New York Times bestselling author "The blend of memory, fact, keen observation, spellbinding descriptiveness and zany characters that populated Vonnegut's work is on full display here."--James McBride, National Book Award-winning author

"Pinker has a lot of ideas and sometimes controversial opinions about writing and in this entertaining and instructive book he rethinks the usage guide for the 21st century. Don't blame the internet, he says, good writing has always been hard. It requires imagination, taking pleasure in reading, overcoming the difficult we all have in imagining what it's like to not know something we do know."--Publisher information.

Craft an Emotionally Charged Story That Will Resonate with Readers Emotional impact shouldn't be dropped into your novel as an afterthought or forced upon your story with a pair of pliers and an iron grip. It should be carefully sewn into the fabric of the story to create tension-filled moments that will keep readers turning pages. In Writing with Emotion, Tension, & Conflict, you'll learn how to layer emotional moments and deep connections to create a tapestry filled with conflict, pathos, and genuine feeling. • Create emotional depth, conflict, and tension in your novel by carefully crafting your plot, characters, setting, word choice, and more. • Learn what makes readers "tick"--and what will elicit the strongest emotional responses. • Write believable, emotional scenes and dialogue--and trim away the sappiness. When writing a novel, your ultimate goal is to make readers smile, weep, rage, and laugh right along with your characters. Writing with Emotion, Tension, & Conflict will show you how to evoke a multitude of feelings in your readers--and keep them coming back for more.

This invaluable workbook-style reference guide will help you transition from writing for composition classes to writing for psychology classes. Author Lenore T. Szuchman's years of experience teaching writing-intensive courses give her an inside track on the trouble spots students often encounter when writing papers and dealing with APA style. The unique workbook format offers both a quick reference to APA style and interactive exercises that give you a chance to practice what you've learned.

This detailed, example-driven guide illustrates how much technical communicators can do to make written texts more suitable for a global audience. You'll find dozens of guidelines that you won't find in any other source, along with thorough explanations of why each guideline is useful.

How John Wrote the Book of Revelation is the first of its kind, and introduces genetic literary reconstruction to Biblical studies. It enables the reader to produce prior drafts of Hebrew and Christian Scriptures, thereby allowing the reader to apply the literary science of genetic criticism to a book in the Bible. How John Wrote the Book of Revelation takes the most difficult book to understand in the Christian Scriptures and reveals the sequence in which it was written, from the very first line to the final parallel. This provides the reader, for the first time, with the experience of observing how a Biblical book was written, and does this from an intimate perspective, as though they were looking over John's shoulders as he crafted it. How John Wrote the Book of Revelation is the first book that teaches the reader how to read Revelation the way it was written. After centuries of blind guess work trying to divine meaning, and weak

interpretations of symbols, this book finally presents a clear, precise, and consistent method. It is a guidebook to identify all the rich symbols and their meanings within Revelation. Inside the pages of this book is the all-encompassing theory of construction for the book of Revelation. It includes three prior drafts of the book of Revelation, along with hundreds of charts and illustrations. How John Wrote the Book of Revelation is like no other book that has been written before, and sets a new paradigm for all Biblical works.

It's the new nonfiction: the creative hybrid combining the readability and excitement of fiction with the best of expository prose; the innovative genre that has been awarded virtually every Pulitzer Prize for literary journalism since 1979. In this book, an undisputed master of the great American nonfiction short story shares his secrets.
